IPMN Global Foundation - Grant Application Form Preview

Use this preview to prepare for the online grant application. Ensure you have the required information ready for a smooth submission process. For questions, reach out to info@ipmnglobal.org.

General Information Section

> *To be filled out in the online application*

1. **Principle investigator & Co-investigators:**
   1.1. Name
   1.2. Title
   1.3. Institution name
   1.4. Institution address
   1.5. Address
   1.6. Email
   1.7. Telephone number

2. **Project location**
   2.1 Institution name
   2.2 Institution address

3. **Type of project** (basic, translational, clinical)

4. **Does the project involve human subjects**?

5. **Does the project involve animal subjects?**

6. **Do you have an approved protocol**?
   2.3 Institution and IRB protocol number
   2.4 Approval date
   2.5 Clinical trials.gov number if applicable
   2.6 IACUC protocol number if applicable

7. **NIH Biosketch for All Investigators and Co-investigators:** prepare file/s to upload.

<u>Detailed Study Information Section</u>

Download the Word document from the online form, complete it, and upload it back to complete this section.

1. **<u>Title of Project</u>**

2. **<u>Specific Aims</u>**

3. **<u>Background, Including Preliminary Results</u>**

4. **<u>Experimental Design</u>**

5. **<u>Potential Challenges</u>**

6. **<u>12-month Milestones</u>**

   Funding will be released in tranches based on the successful completion of identified milestones. Each milestone must have measurable objectives and a clear timeline.

7. **<u>Budget:</u>** Total amount requested *(maximum is $75,000)*

8. **<u>Constraints:</u>**

   8.1. <u>Equipment</u>: *Maximum of 20% of the total grant amount. Any equipment purchases over $10,000 should be justified in detail.*

   8.2. <u>Indirect Costs</u>: *Not covered.*

   - We prioritize direct impact. While we appreciate the operational needs of institutions, our grant aims to support the direct costs of research.

   8.3. <u>Supplies</u>: *Detailed list required, especially for high-cost items.*

   - Supplies should directly contribute to the research process. When listing high-cost items, consider their role in achieving key milestones and results.

   8.4. <u>Core Fees</u>: Maximum of 15% of the total grant amount.

   - Researchers are encouraged to prioritize and utilize core facilities and services essential to their project's success. If costs related to a particular service exceed this cap, a brief justification should be provided.

9. **Synergistic Research & Broader Impact**:

   9.1. Does this project involve collaboration with other institutions or researchers? If so, provide details on the collaborative elements and explain how it fosters partnership and advances in IPMN research.

   9.2. How does your project align with the broader landscape of IPMN research?

10. **Current and Pending Funding**: Carefully indicate reasons for non-overlap if potential overlap exists.

***Notes for Application**

- ✓ *Specific aims, background, design, challenges, and milestones should not exceed two pages, using a Font of 12 and 1 inch margins.*
- ✓ *The application will be reviewed by both experts and lay individuals. Ensure clarity for all audiences and consider attaching a glossary or link for terms to assist non-experts.*
- ✓ *Some applicants may be requested to give a 10-minute overview of their proposal prior to fund.*
- ✓ *Please note that a key element that will rank highly when reviewing applications is the opportunity to translate the project into clinical practice and impact patient care.*
